**GMA ANNOUNCES STRATEGIC PARTNERSHIP WITH HANS BIOMED,
AWARD WINNING BONE AND TISSUE REPLACEMENT RESEARCH FACILITY AND SUPPLIER.**

Burr Ridge, IL | November 15th, 2013

GMA today announced a strategic partnership with Asia's largest tissue bank: Hans Biomed. The Korean company is a world-renowned tissue and bone replacement supplier and research facility.

Hans Biomed's transplant tissue product was named the "world's top product" by the Ministry of Commerce, Industry and Energy in 2002 and was the first Asian company to be registered with the FDA.

Jerry Summers, Founding Partner of GMA commented, "this strategic partnership with Hans Biomed will strengthen our product line and help us expand our current network internationally. We are extremely excited to welcome Hans Biomed to the GMAfamily and look forward to working with them to provide new and innovative product solutions for our clients.

About GMA

GMA is one of the fastest growing private label providers of spinal and orthopaedic devices in the United States. Driven by an entrepreneurial spirit and an unmatched commitment to customer service and product innovation, GMA supplies the world's finest surgical implants and instruments; custom made to their clients' specifications.
